Doxe update instructions
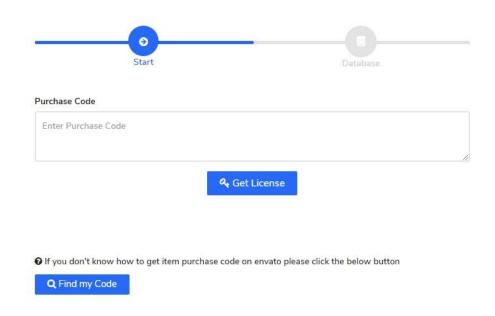

Step 1: Backup！you must backup your all files & database before update.

Step 2: Download the latest **doxe.zip** file and extract it on your pc. Open **updates > v1.3 > uploads** folder there you will see **2 zip files** in this folder and you need to upload those files in your server please follow the below directions carefully.

- **application.zip** > upload path: Goto your **project root folder > application** > upload this zip file and extract it inside this folder.

- **assets.zip** > upload path: Goto your **project root folder > assets** > upload this zip file and extract it inside this folder.

Step 3: Upload **"updates"** folder in your project root folder

Step 4 Open a browser and write url like this: www.yourdomain.com/updates/ v1.3 you will see a page like below here enter your item purchase code for update this script.

Step 5: Here provide your current database credentials and wait few seconds for update your scripts.
